MR ASIF ALI

Front-End Engineer

About Me

I am a front-end developer with 4 years of professional experience, specializing in building modern, responsive, and scalable web applications using React.js, Next.js, TypeScript, and Tailwind CSS. I have managed operations and development projects at Techever Solutions, gaining hands-on experience in team coordination and project delivery. My background also includes internships at North Aims Technology and Triangle, where I strengthened my technical and collaborative skills. In addition, I have served as an instructor in the NSF Training Program and at Techever, where I contributed to training and mentoring aspiring developers

EXPERIENCE

Front-End Developer (Internships & Projects)
North Aims Technology | Triangle Technology | Techever Solutions – Gilgit
2021 – 2024

- Built strong foundations in HTML, CSS, Bootstrap, and JavaScript during internship at North Aims Technology (2021–2022).
- Advanced expertise in React.js, Next.js, TypeScript, and Tailwind CSS at Triangle Technology (2022–2023).
- Contributed to live client projects at Techever Solutions (Feb 2024 – May 2024), developing responsive, user-friendly, and scalable web applications.
- Applied version control (Git/GitHub) for smooth collaboration and efficient code management.
- Gained hands-on experience in project-based development, enhancing technical and teamwork skills.

Project Manager Techever Solutions – Gilgit
Feb 2024 – May 2024

- Managed multiple client projects from initiation to delivery.
- Gathered client requirements, prepared task breakdowns, and coordinated with development teams.
- Ensured projects were delivered on time and met quality standards.
- Balanced management duties with front-end development contributions, handling both leadership and technical roles.

Instructor (Web Development Basics)
NSF Academy – Gilgit | Techever Solutions – Gilgit
2023 – 2024

- Conducted training sessions on HTML, CSS, JavaScript, and GitHub (version control).
- Mentored students on building real-world projects and improving coding practices.
- Trained learners in using Git/GitHub for code management and collaborative development.
- Promoted interactive, practical learning and guided aspiring developers in strengthening their fundamentals.
